

DVD/CD STANDALONE DVD/CD MASTER DUPLICATORS

**FAST, EASY, LOW COST
ONE TO ONE DVD/CD DUPLICATION**

CD MASTER

**User Interface: Load & Go Performance, No Controller Interface
Supports: CD Rom, CD Audio, VideoCD and CD + G Karaoke
Enclosure: Small Desktop Footprint with Aesthetic Design**

CD Master is a new economically priced one to one CD duplication system designed for the office or home environment. Now users can quickly and easily duplicate virtually any CD for back up purposes, low run distribution of digital content and a variety of applications and requirements. Simply place the Master disc in the reader device, blank disc in the writer, close the drawers and the duplication process automatically begins. Upon completion the new duplicated disc automatically ejects. In addition, the CD Master features a small desktop footprint with attractive office aesthetics, at an affordable price point. For fast and cost effective one to one CD duplication, the CD Master is the best choice available today. Call for details!

DVD MASTER

**User Interface: Load & Go Performance, No Controller Interface
Supports: DVD Video/Audio, CD/DVD Rom, CD Audio & VideoCD
Enclosure: Small Desktop Footprint with Aesthetic Design**

THE DVD MASTER SYSTEM is a low cost, economical one to one DVD/CD Duplicator designed for low volume requirements. Featuring a small desktop footprint with a sleek aesthetic design, the DVD Master is perfect for any office or even home environment. To operate the unit, simply load your Master disc in the top reader drive, your blank disc in the writer, and close the drawers. The system automatically begins the duplication process ("Load and Go"). Upon completion, the duplicated disc is automatically ejected. A cooling fan and superior ventilation keep the unit from overheating, assuring the integrity of the system. For low cost, economical DVD or CD disc duplication, the DVD Master is the best choice available today. Call for details!
